

Alissa Bengtson

Front-End Web Developer

Connecticut, USA · avbengt@gmail.com · [Portfolio](#) · [LinkedIn](#) · Remote only

SUMMARY

Front-End Web Developer with 13+ years of experience delivering high-performance, responsive web products at scale. Played a key role in Next.js front-end rebuild of global marketing websites serving 1M+ weekly visitors at Corel, touching brands like Parallels and WinZip. Strong command of modern HTML, CSS and JavaScript, with a keen eye for design, cross-browser quality and performance. Currently deepening hands-on experience with React and Next.js through active project work. Experienced working autonomously in remote, cross-functional teams alongside designers, backend engineers, and stakeholders. Proficient with AI-assisted development tools (Cursor, Claude, ChatGPT) and eager to bring that productivity to a collaborative team.

EXPERIENCE

Freelance Front-End Developer & Web Producer | [alissa.dev](#) *Dec 2024 – Present · Remote*

- Contract Web Producer for Corel Corporation's web team, building and maintaining responsive product and landing pages with HTML, CSS, JavaScript, and Django, using Git and Jenkins for version control and deployment.
- Build and ship personal web applications with React, Next.js, Tailwind CSS, and Firebase, including a weather app and a real-time AOL Instant Messenger revival with a chatbot.

Web Producer (Front-End) | Corel *Jul 2011 – Nov 2024 · Remote*

Served as one of two core full-time front-end developers on a lean team supporting global marketing websites across Corel's portfolio brands, including Parallels and WinZip - sites collectively viewed by over 1 million users per week.

- Hand-coded pixel-perfect, responsive pages from Figma designs using HTML, CSS, and JavaScript across multiple international domains.
- Contributed extensively to the migration of the Parallels website from a legacy CMS to Django, updating hundreds of localized pages while maintaining WCAG accessibility standards.
- Designed and built a reusable component library and shared CSS system to enforce design consistency across all campaign and product pages.
- Partnered with UX designers, product stakeholders, and QA engineers to ship landing pages and marketing assets that improved engagement and conversion rates.
- Established cross-browser testing processes and conducted code reviews to uphold performance, compatibility, and maintainability standards.

SKILLS

Languages & Frameworks: HTML · CSS · JavaScript (ES6+) · React · Next.js · Tailwind CSS · Bootstrap · jQuery · PHP · Python

Frontend Specialties: Responsive Design · Component Architecture · API Integration · Performance Optimization · Core Web Vitals · SEO · Accessibility (WCAG) · Cross-Browser Compatibility · Design Systems

Tools & Platforms: Git · SVN · NPM · CI/CD · Jenkins · Vercel · Firebase · VS Code · Google Tag Manager · Figma · Adobe Creative Suite

AI & Productivity: Cursor · Claude · ChatGPT · Asana · Basecamp · Microsoft 365

PROJECTS

Weather App | Next.js · OpenWeather API · Tailwind CSS

- Built a responsive weather app with current conditions, 5-day and hourly forecasts, moon phase data, and location-based search with autocomplete.
- Implemented dynamic UI theming based on time-of-day and weather conditions; architected efficient API data parsing with reusable component patterns.

AIM Revival | Next.js · Firebase · Tailwind CSS

- Building a recreation of the classic AOL Instant Messenger experience for the web using Next.js, featuring draggable windows with bounds-clamping, z-index focus/stacking states, and a taskbar that reflects active window state.
- Integrated Firebase Auth and Firestore for user sign-in, presence tracking, and message history; used Cursor AI to accelerate development and debug complex UI behavior.

EDUCATION

Certificate in Web Design & Development

2019

University of Denver

Bachelor of Arts in Graphic/Information Design

2010

Central Connecticut State University
